Hi Jake! Great to hear from you! It's exciting that you are thinking of organizing a culture exchange week. I took part in a similar project last year, and it was an unforgettable experience. I learned a lot about different traditions, daily routines and ways of thinking. The most important lesson for me was how to communicate confidently with people from another culture and be open-minded.

I definitely think it's a great idea for you to join. Culture exchange will help you improve your language skills, make new friends and global interaction. Additionally, it can help you to become more independent. At first, it may feel challenging but it's good chance to develop your team work skills.

about staying with a host family. don't worry so much. My advice is to be polite, ask questions if you don't understand something and show interest in their culture, host families are usually very welcoming and warm-hearted.

If you decide to join, I'm sure you will not regret it. Let me know if you need any help

Best wishes Adebay!

e) An object I use every day.

Every person has it's own object that he uses every day, without which he can't imagine his daily routine.

If to talk about me, I would choose headphones instead of other objects. I can't imagine my life without listening to music. Every day when I'm doing some households I turn on my headphones and start choosing some music on my phone. I'm really fond of listening podcasts in English, as I've been learning English for many years, I enjoy choosing some exciting playlists and improve my skills. I think that it's really useful to listen different podcasts, songs, because your speech becomes brighter and better. While you're listening to English music your ears try to understand the language better, and it makes you feel more confident, also you'll answer different enquires without nervousness! So the advantages are: improving your listening and speaking skills, making your speech vivid! But there are several disadvantages too:

Your hearing will become worse, if you listen to music a lot, but if you won't do that, everything will be good.

So, In addition, this everyday object is very skillful. If you use it normally, and I would definitely recommend it to all of people!

For today, i chose my personal computer, the reason why i chose it, because it's literally the part of my daily routine. I use it almost everyday. I play games on it, i talk with my friends with it, i listen to music on it, i watch videos, movies on it. And there's a way lot more things you can do with it. But i don't just watch it everyday sitting on my chair. Because you can't watch it too much because you will get addicted. So you have to do some chones, physical activities, reading books, before watching it again. Me personally, i finish all my chones and works and then watch the computer. My family doesn't allow me to sit on the computer unless you do something that deserves to watch the computer. You can get your eye hurt if you watch it too much. But you can learn a lot of new things. Watching and playing computer can change your routine, i recommend it

I had never expected the school trip to end like this. Now, I study in 10th Grade. All my school life ends soon. I met a lot of friends in school and graceful teachers. This school become my journey.

In my last school trip was interesting. I saw a lot of historic places and interesting stories. The places were stayed city in XV century is and I saw "Aisha-biby", "Aqyrtas" and a lot of interesting places with an mysterious stories.

I always loved historic stories since my childhood. So, I liked the historic places were I have been.

In my opinion, we must to know about our past history. I don't want to past stories became in our future. Example, when the Kazakhstan didn't take independents, russians were rude with us, But it's doesn't mean that all russians such a villains!

In conclusion, I liked my last school trip. I guess, I'll remember this all my life.

From today, I choosed my own ^{blocknote} thing that I use everyday. I chosed it, because I'm using it everyday and draw a character, Daily, I use it for drawing characters that, I created in my head. Drawing can be a longer in blocknote, because longer I try some thing very difficult for me and I can spent hours or days to finish it. Other things that I do in blocknot is creating scenarios for character. For example, I give him a name, creat clothes, backstory and future. I will show Firstly you how blocknote is useful.

Firstly, block note has a lot of a pages, so you write, draw or creat something. You can do it whenever ~~any~~ you want and do it everywhere. Secondly, You can write something that you always forget, so you will never forget something. However, block note isn't infinitive and one day it's gonna end. After finishing blocknote it becomes useless.

In conclusion, I will reeommend block notes for people forgots important things, Artists, writers and scenarists. In my opinion, they are gonna use it everyday and finish it after months.

IV Writing (A)

In nowadays teenagers can learn everything they want. Because all teenagers have mobile phones and Internet. If you want to learn something, you will have a very good skill that can help you in the future. But what skills you can learn? In nowadays we can do everything, we want in our mobile. Yes, of course! For example, buy products, order a taxi, even if you want to learn a new language you can just see a tutor in YouTube. In my opinion our technology is growing fast, so very important skill in teenagers life is IT, because you can be a very good programmer in the future. and in the future this skill is very progressive.

But my skill is a little bit different. My hobby is learn English. Why it is important for me? Maybe, because in the future I want to be a flyovered. How I learned this language I just went to teacher's home and she taught me about grammar and new words.
